Chief Information Officer

Cleveland

T. 216.363.4424

mtader@beneschlaw.com

Main Bio

Matt is a seasoned technology executive with a distinguished career in aligning IT strategies with business goals to drive measurable outcomes. With a diverse background in leading technology transformations across law firms and other sectors, Matt specializes in optimizing processes, developing talent, and implementing innovative technologies that enhance operational efficiency and business outcomes. His expertise spans strategic planning, technology modernization, and fostering collaboration across departments to ensure seamless integration of technology and business objectives.

Matt excels in building and leading high-performing teams, cultivating strong internal and external partnerships, and communicating effectively with stakeholders at all levels. Known for his ability to navigate complex organizational challenges, Matt has consistently delivered solutions that are not only technically sound but also aligned with the firm's long-term vision. His leadership fosters cultures of collaboration and continuous improvement, ensuring that technology serves as a competitive advantage.

With a commitment to driving results and an ability to anticipate future needs, Matt brings a balanced approach to innovation and stability, ensuring that Benesch will be both secure and forward-looking.
